D&B Connect™

Unlock your doorway to growth with
a clean data foundation

In today's ultra-competitive marketplace, data-driven organizations have a clear advantage over their rivals.

The Challenge

In fact, McKinsey predicts a 23x increased likelihood of acquiring customers.* Organizations must keep up with the rapid changes in available customer data if they want this competitive advantage.

In just the next 60 minutes, 193 business will move to a new address, 312 companies will swap their CEOs, 90 companies will change their name and 12 businesses will file for bankruptcy.** Keeping up with this velocity of change can overwhelm time and resources.

D&B CONNECT - EASIER, FASTER, FRESHER ACCESS TO TRUSTED DATA

Data management is complex, but with the right AI-driven platform, it doesn't have to be. D&B Connect allows companies to intuitively transform their data with the Dun & Bradstreet® Data Cloud, the world's most comprehensive source of business data and insights. Companies can instantly access, benchmark, enrich, and monitor their data against category-leading data in the Dun & Bradstreet Data Cloud.

With D&B Connect, you'll get a more complete view of your most important business relationships and help keep your systems of record up to date such as Master Data Management (MDM) Platforms, data lakes, CRM, and Customer Data Platforms (CDPs).

With D&B Connect you'll get:
